## FWHS AUTO EARNS ACCREDITATION

The automotive technology education program at Flowing Wells High School has earned Automotive Service Excellence program re-accreditation by the ASE Education Foundation in maintenance and light repair. The ASE Education Foundation is a nonprofit, independent organization that evaluates and accredits entry-level technician training programs against standards developed by the automotive industry. All accredited programs throughout the country undergo this examination every five years to maintain their accreditation. Flowing Wells has successfully met these standards every five years since 2002 and is the only comprehensive high school in Southern Arizona that continues to earn this distinction. Way to go Mr. Brenton and Auto students!
